KōBEE... THE BENEFITS

The essential building blocks to optimal bee health, our concentrated mixed seaweed blend contains all essential amino acids as well as the recommended daily requirement of minerals & trace elements.

Including KōBEE as part of your regular bee feeding programme will help ensure your bees and hives stay strong and healthy all year round.

KōBEE is a Unique Bee feed developed for NZ conditions to focus on Bee health and the vitality of hives

Similar products created in the past have come from a seaweed bi-product of another manufacturing process whereas our product uses three freshly collected seaweed species combined specifically for this purpose."

Our mixed blend of red, green and brown seaweeds each have unique nutritional profiles which combine to give a much wider range of nutrients.

KōBEE was developed by beekeepers for beekeepers right here in New Zealand.

What our customers say about KōBEE

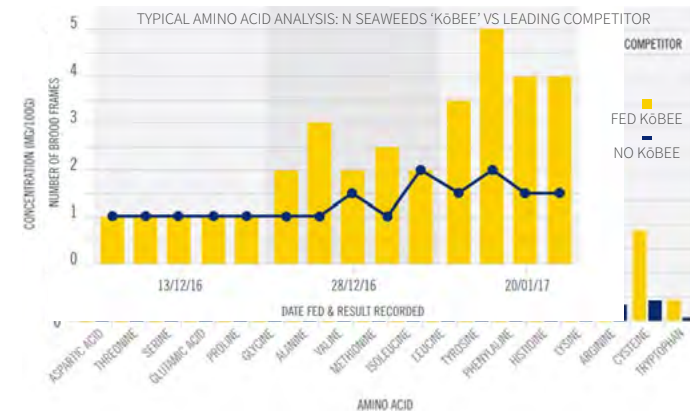

"I picked up a litre of your seaweed product. We fed it to one of the weaker apiaries a few weeks back and when revisited today were quite surprised to see how much the hives had picked up! "My business partner, who was pretty pessimistic about the product to say the least, has decided we should probably take it all a bit more seriously!"

"The product works well for me. The hives are a lot stronger and the bees are lasting a lot longer – they are just in better condition."

KōBEE... THE EVIDENCE

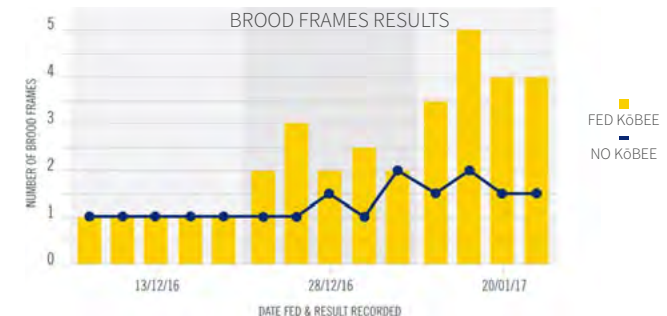

AMINO ACIDS COMPARISON

- Significantly more Amino Acids

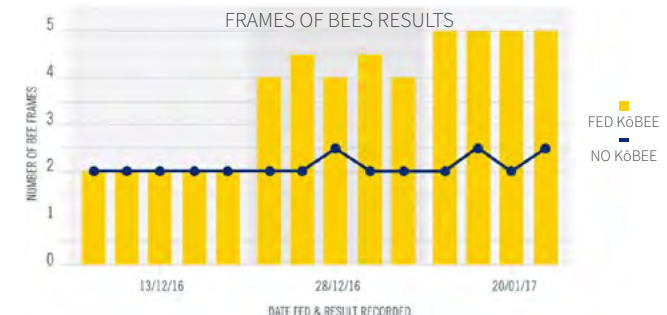

BEEKEEPER FIELD TRIALS

- Substantially more brood frames
- Actually more production

EACH COLONY WAS MADE UP OF ONE BROOD FRAME AND ONE NECTAR FRAME, BOTH COVERED IN BEES. HIVES 1-5 WERE FED KōBEE. HIVES 6-10 WERE FED SUGAR SYRUP. 2 LITRES WERE FED EACH VISIT.

EACH COLONY WAS MADE UP OF ONE BROOD FRAME AND ONE NECTAR FRAME, BOTH COVERED IN BEES. HIVES 1-5 WERE FED KōBEE. HIVES 6-10 WERE FED SUGAR SYRUP. 2 LITRES WERE FED EACH VISIT.

We recommend adding 20mls of KōBEE to every litre of syrup to gain the optimum benefits of our unique bee nutrition formula.

KōBEE contains all essential amino acids and trace elements as follows...

AMINO ACIDS		TRACE ELEMENTS AND MINERALS	
	Mg/100g	Nitrogen	49 ± 5.16

Proline	13 ± 1.56*	Vitamin B5	✓
Glycine	16 ± 1.98*	Vitamin B6	✓
Alanine	16 ± 1.84*	Folic Acid	✓
Valine	16 ± 1.83*	Phospholipids	✓
Methionine	6 ± 0.49*	Phlorotannins	✓
Isoleucine	11 ± 1.50*	Polysaccharides	✓
Leucine	17 ± 1.94*		
Tyrosine	10 ± 1.26*		
Phenylalanine	12 ± 1.45*		
Histidine	5 ± 0.56*		
Lysine	16 ± 2.35*		
Arginine	15 ± 1.77*		
Cysteine	9 ± 1.26*		
Tryptophan	2 ± 0.63*		

* As a biological product, variances will occur.

“We’ve implemented a feeding programme where we are feeding the hives on a 3-4 week cycle depending on their accessibility. We have been trialling the KōBEE supplement and the bees are going absolutely crazy for it!”

KōBEE... THE STORY

“THERE HAS NEVER BEEN A TIME IN HISTORY WHEN THE NATURAL ENVIRONMENT HAS BEEN UNDER GREATER THREAT THAN IT IS NOW, AND THEREFORE THE NEED FOR NEW IDEAS AND INNOVATION TO COMBAT THE DESTRUCTION OF NATURE ON WHICH WE ALL DEPEND HAS NEVER BEEN GREATER.”

Sir David Attenborough

Years of research, field trials and formulation development of the ground-breaking KōBEE Bee Nutrition tonic were recognised when the New Zealand Seaweeds team were presented with the Ravensdown Innovation & Environment Award for 2018

“We found KōBEE to be the clear winner of the 12 products nominated for this award” confirms Ravensdown Operations Manager Grant Whitfield.

“Our goal is to ensure bees get all the amino acids, essential minerals and trace elements they need going into the winter season so that you have stronger and healthier hives going into spring which means you will have happy, healthy bees.”

KōBEE... WHERE TO BUY

Available Nationwide, dispatched daily.
